CAREER OBJECTIVE

A Detail-oriented Software Engineering graduate with expertise in Data Analytics, Web Development, and IT Solutions. Proficient in Power BI, BigQuery and SQL with strong problem-solving and analytical skills. Experienced in website development and IT process optimization, leading to improved efficiency. Certified in Data Analytics, SQL and UI/UX Design, eager to apply technical expertise to data-driven decision-making.

EXPERIENCE

Program officer   5 Months +
National Anti-Tuberculosis Association of Bangladesh
Gulistan, Dhaka

Key Responsibilities

- Successfully designed and completed the organization's website independently, meeting all requirements, expectations.

- Developed and managed the organization's website, ensuring functionality, performance, and user experience.

- Oversaw all IT-related tasks, including troubleshooting, maintenance, and support to ensure smooth operations.

- Conducted meetings with officials and performed field visits to coordinate and execute job-related activities.

- Consistently achieved organizational goals and project deadlines with efficiency and precision.

- Implemented cost-effective IT solutions, resulting in significant savings in both time and resources.

AREA OF EXPERTISE

Technical Skills:

- **PostgreSQL:** Writing SQL queries, managing databases, and extracting data effectively.

- **SQL:** Writing advanced queries, manipulating data, and integrating databases seamlessly.

- **Power BI:** Building dashboards, visualizing data, writing DAX, and generating reports

- **Microsoft Excel:** Creating pivot tables, charts, cleaning data, and writing formulas.

- **Google Sheets:** Cleaning data, writing formulas, enabling collaboration, and visualizing data.

- **BigQuery:** Executing SQL queries, analyzing big data, processing storage, and platform integration.

- **Looker Studio:** Designing dashboards, visualizing data, generating reports, and connecting databases.

- **JavaScript:** Scripting front-end queries, manipulating data, and enhancing interactivity.

- **HTML & CSS:** Developing websites, structuring content, and applying effective styling.

- **WordPress:** Building websites, customizing themes, managing content, and integrating plugins.

Soft Skills:

- **Analytical Thinking**
- **Problem-Solving**
- **Adaptability**
- **Communication**
- **Attention to Detail**
- **Quick Learning**

EDUCATIONAL QUALIFICATION

Bachelor's Degree in Software Engineering – Daffodil International University
Graduated – **2022** | Dhaka, Bangladesh.

PROJECTS

Titanic Dataset Analysis

- Utilized SQL and Power BI to analyze survival rates based on class, gender, fare, age, family size & embarkation port.
- Designed an interactive Power BI dashboard to visualize key insights and patterns.

Super Store Sales Analysis

- Leveraged Power BI, Excel, and DAX to analyze sales trends and performance.
- Applied time series forecasting and created a dynamic dashboard to support data-driven business decisions.

Music Store Data Analysis

- Conducted SQL-based analysis on customer activity, sales trends, and artist performance.
- Extracted insights on top customers, best-performing cities, and popular music genres across different regions.

TRAINING & CERTIFICATIONS

- **Data Analytics Career Bootcamp –** Human Development Network Bangladesh- HDNB
- **SQL & PostgreSQL for Beginners–** Udemy
- **UI/UX Design –** Pencilbox Training
- **WordPress, Web design & Ecommerce Master Course–** Mexemy

EXTRACURRICULAR ACTIVITIES AND VOLUNTEERING

Treasurer	**Leo Club of Dhaka Megacity**
Founding Member	**DIU Change Together Club**
Volunteer	**Mastul Foundation**

ADDITIONAL INFORMATION

Languages: Bangla | English

Hobbies & Interests: Photography, Exploring new software/tools, Playing team sports, Listening to music.
